*This book is dedicated with love
to Marcus, Kelson, Cameron, Charlie,
Sarah, Elise and Allison*

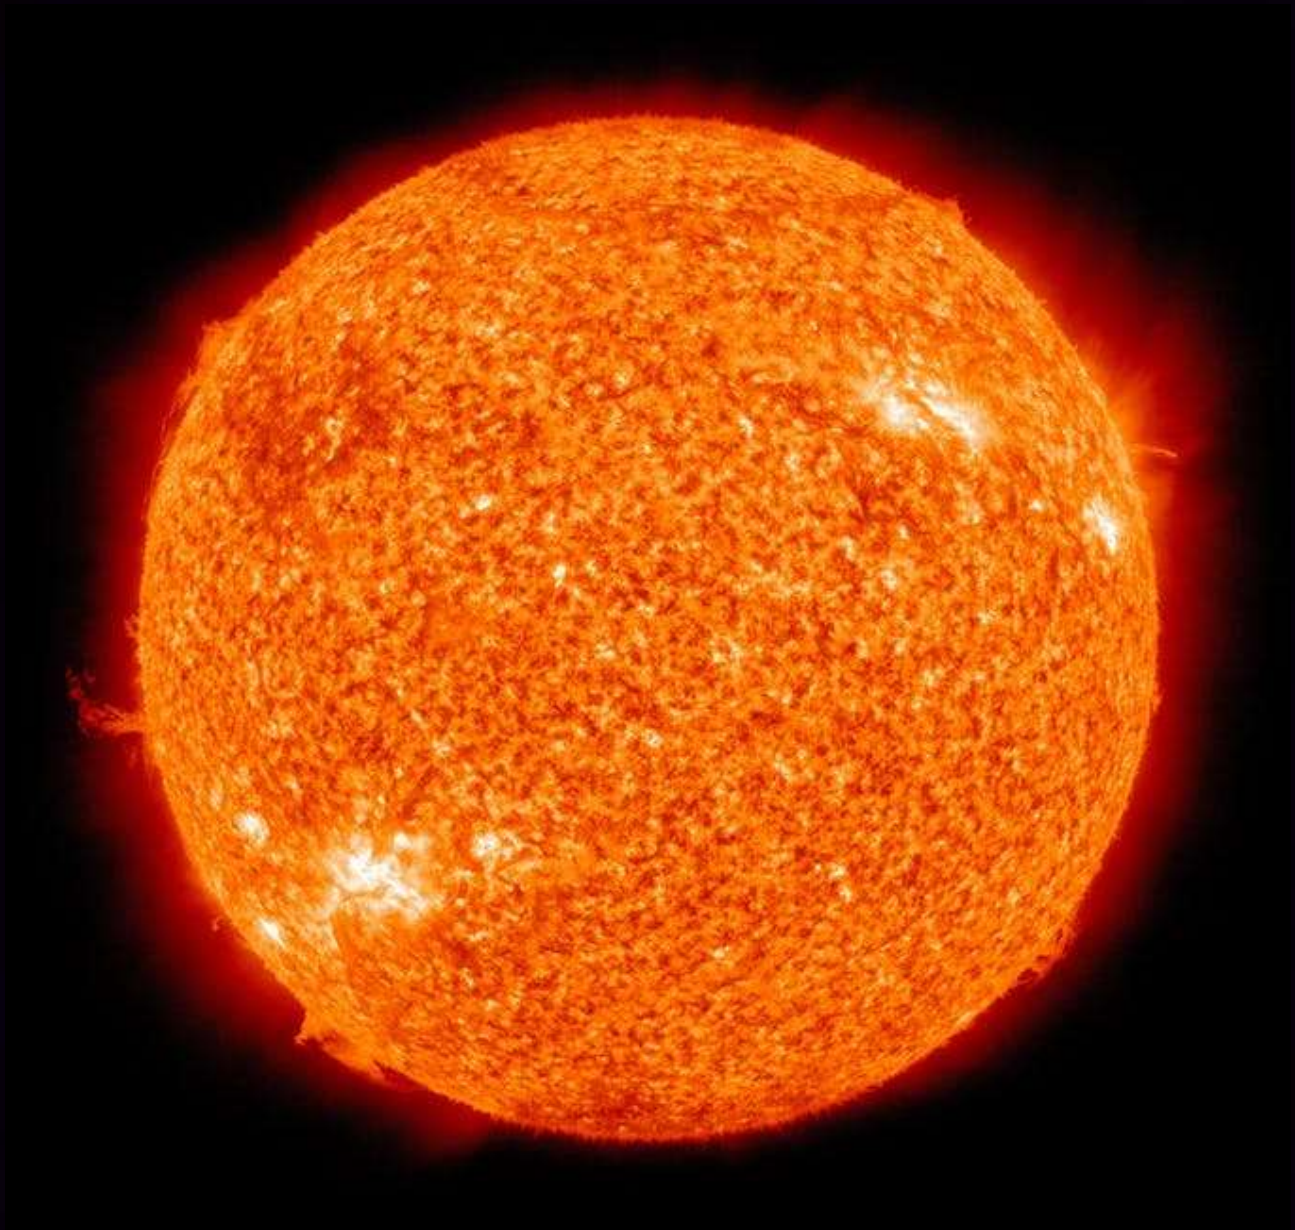

In the beginning there was no-thing.
Only the love and wisdom
of *Great Spirit* existed.

A vibrant blue starburst of light radiating from a central point against a dark background. The light consists of numerous thin, bright rays emanating from a central, slightly blurred white and yellow core, creating a sense of intense energy and brilliance. The rays spread outwards, filling the upper two-thirds of the frame with a shimmering, ethereal glow. The background is a deep, dark blue, speckled with tiny, distant stars, enhancing the cosmic and divine atmosphere of the image.

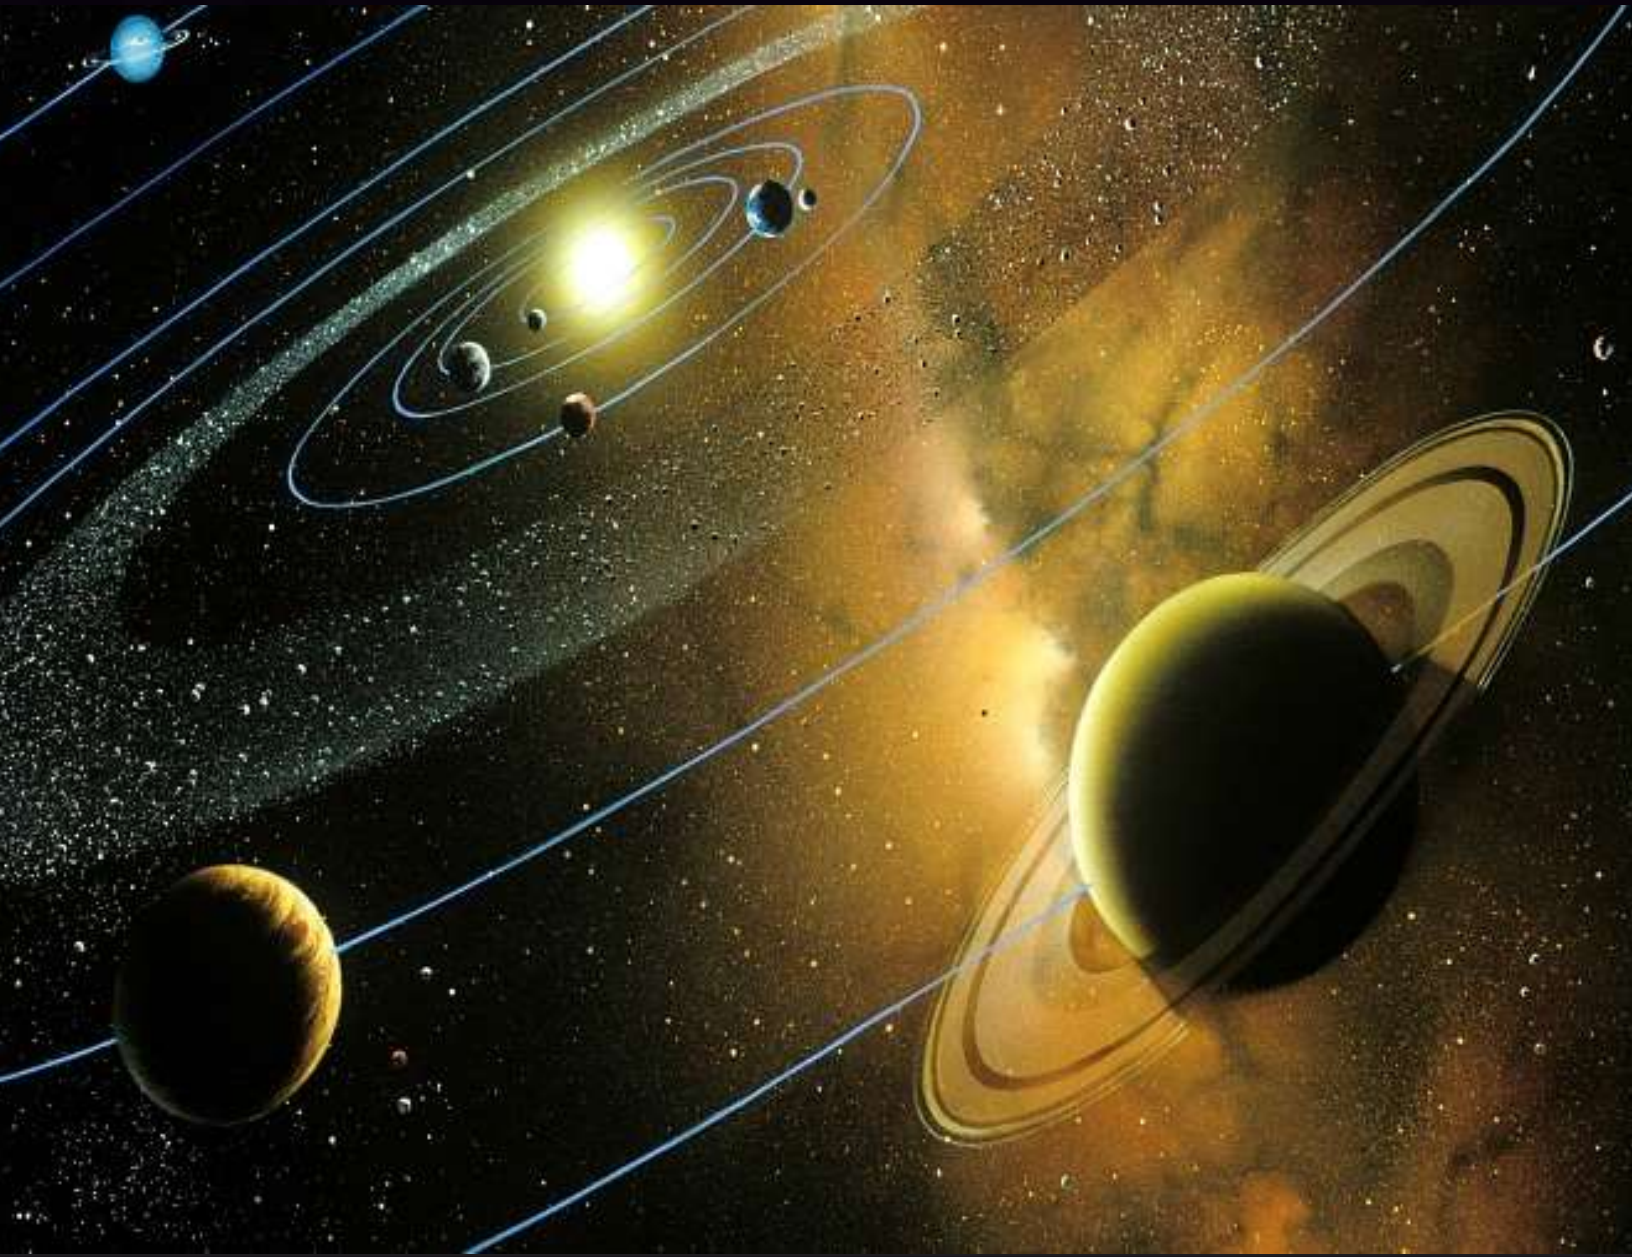

*Great Spirit became Creator and
spoke with powerful words.
“Let there be light!”*

Bright shining clusters of
sparkling light were placed
throughout the darkness.
Creator called them *stars*.

One of the stars was especially bright.
“I will call this star, *Sun*,” *Creator* said.

Planets were created to circle around the sun.
Each had its own path and sang its own song.

*Creator named one of
the planets, Earth.*

The moon was made to reflect
the sunlight in the darkness of the night.
It circles around *Earth*.

Clouds and rainbows were made. *Creator*
called the spirit of the heavens, *Father Sky*.

Creator decided to make *Earth* a beautiful garden and create life.

Creator named the spirit of the Earth,
Mother and created...
